PROJECT

ONLINE EXAM MANAGEMNET SYSTEM

Developed a full-stack Online Exam Management System using Python/Django with multi-role authentication (Admin, Teacher, Student), MCQ-based timed exams with AJAX auto-grading, automated result generation, and a responsive dark-themed UI — deployed on Render.

EXAM SEATING MANAGEMENT SYSTEM

Built an Exam Seating Arrangement System using Python/Django that automates student seat allocation across multiple halls with branch-mixing logic to prevent cheating, generates printable PDF seating charts, and reduced manual arrangement time from hours to seconds for 500+ student batches.
